Phishing Email Analysis

0.0.1 **Phishing Email Example** This email uses multiple phishing tactics: a fake sender, urgency, a generic greeting, and a suspicious link.

Listing 1: Phishing Email Example

```
From: "Security Team" <secure-update@bancorp-services.com>
Reply-To: "Scammer" <john.doe.891@mailbox.com>
To: "Valued Customer" <user@mycompany.com>
Subject: Urgent Action Required: Your Account is Suspended!

Dear user,

We have detected unusual activity on your account. For your security,
we have temporarily suspended your access.

To restore your account, you must verify your identity immediately
by clicking the link below:

https://bancorp-services.security-update.com/login?session=a3fG_1s

Failure to do so within 24 hours will result in permanent account closure.

Thank you,
The Security Team
